

Gael Alves

Full-Stack Developer

Rio de Janeiro, Brazil | gaelalves.business@gmail.com

SUMMARY

Freelance full-stack developer helping clients build, improve, and maintain websites, online stores, mobile apps, dashboards, API integrations, and automation systems. Experienced with WordPress, WooCommerce, Shopify, React, Next.js, Node.js, PHP, Laravel, Firebase, Supabase, and AI chatbot integrations. Focused on clear communication, clean code, responsive design, testing, and reliable delivery.

EXPERIENCE

Full-Stack Developer

February 2025 - March 2026

Freelance / Self-Employed

- Built, improved, and maintained websites, online stores, mobile apps, dashboards, API integrations, and automation systems for clients.
- Worked across WordPress, WooCommerce, Shopify, React, Next.js, Node.js, PHP, Laravel, Firebase, Supabase, and AI chatbot integrations.
- Delivered with a focus on clear communication, clean code, responsive design, testing, and reliable handoff.

WordPress & WooCommerce Developer

December 2023 - February 2025

Freelance

- Developed and optimized WordPress and WooCommerce websites for small businesses and online stores.
- Handled custom themes, plugin setup, checkout configuration, payment integration, and product catalog management.
- Improved SEO basics, page speed, bug fixes, and mobile responsiveness.

Shopify Developer

August 2019 - May 2023

Freelance

- Built and customized Shopify stores, including product pages, collection pages, cart adjustments, and theme customization.
- Implemented responsive layouts and basic SEO setup for client storefronts.
- Helped clients improve store structure, user experience, and conversion-focused pages.
